Special meter reading charge	No charge		No charge		\$0.00	0.0%
Mcf - 1,000 cubic feet						

The change in rates is based on the proposed new tariff provision:

A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The SDR is designed to encourage economic development and job growth by providing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$500,000 annually for such projects or additional resources subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement. All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,000,000 or 2.00% with increases of approximately \$3,247,156 or 2.03% for residential consumers, and \$487,943 or 2.03% for commercial consumers, and approximately \$1,257,235 or 2.37% for industrial consumers. Charges from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.87 or 1.13%. The average monthly bill for commercial consumer will increase approximately \$11.92 or 2.81%. The average monthly bill for industrial consumer will increase approximately \$23.55 or 1.85%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation level.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSOC may order rates to be changed other than the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSOC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSOC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSOC's office as website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the office of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of the application and all related documents are available for public review at the offices and website of Atmos and the KPSOC listed below:

Public Notice
 Notice is hereby given that Rut 'N' Strut Distillery, LLC, 500 Gordon Lane, Shelbyville, KY 40065, has filed an application with the Resources and Environmental Protection Cabinet to re-establish access to 500 Gordon Lane after the existing structure was washed out. The applicant proposes to construct a bridge at the same location on Gordon Lane over Dry Run Creek. A temporary low water crossing will also be constructed on the downstream side of the proposed bridge to provide access during construction. The project includes widening Gordon Lane and extending it on the 500 Gordon Lane property. The bridge site is located 2800 feet from the intersection with KY 55 which is on the south side of the I-64 interchange at Exit 32. Any comments or objections concerning this application shall be directed to: Kentucky Division of Water, Water Resources Branch, 200 Fair Oaks Lane, 4th Floor, Frankfort, Kentucky 40601. Phone: (502) 564-3410.

Mcf = 1,000 cubic feet						

The charges in rates is based on a proposed new tariff provision:
 A System Development Charge (SDC) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The SDC is designed to encourage all economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDC revenue requirement.
 All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,087,352 or 2.93% for commercial customers and approximately \$2,121,353 or 2.93% for residential customers. Charges from other gas revenue will not increase. The average monthly bill for residential customers will increase approximately \$0.87 or 1.12%. The average monthly bill for commercial customers will increase approximately \$5.11 or 6.26%. The average monthly bill for industrial customers will increase approximately \$53.55 or 4.88%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation; however, the KPSC may order rates to be other than the rates included in this notice.
 Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the extent and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the office of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of the application and all related documents are available for public review at the office and website of Atmos and the KPSC listed below.

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on the 30th day of July, 2014 pursuant to Kentucky Revised Statute 278.160 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Rate Classifications	Present Rates (Effective August 1, 2014)		Proposed Rates		Rate Change Increase / (Decrease) % Change
	Charge	Unit	Charge	Unit	
Rate G-1, General Sales Service					
Residential Service					
Monthly Base Charge:	\$16.00	Per meter	\$16.67	Per meter	\$0.67 4.19%

Special meter reading charge	No charge		No charge		\$0.00 0.0%

Mcf = 1,000 cubic feet

The change in rates is based on a proposed new tariff provision: A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,057,352 or 2.93% with increases of approximately \$1,247,156 or 2.93% for residential consumers, and \$487,043 or 2.93% for commercial consumers, and approximately \$332,253 or 2.93% for industrial consumers. Charges from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.13%. The average monthly bill for industrial consumers will increase approximately \$2.11 or 0.38%. The average monthly bill for industrial consumers will increase approximately \$39.53 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSC may order rates to be changed that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC within thirty (30) days after publication or making of this notice of the proposed rate changes, request to intervene. Intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSC listed below:

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on the 20th day of July, 2014 pursuant to Kentucky Revised Statutes 278.180 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPSGC"), proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Rate Classifications	Present Rates (Effective August 1, 2014)		Proposed Rates		Rate Change Increase / (Decrease) % Change
	Charge	Unit	Charge	Unit	
Rate G-1, General Sales Service					
Residential Service					
Monthly Base Charge:	\$16.00	Per meter	\$16.67	Per meter	\$0.67 4.19%
Commodity Charge:					
First 300 Mcf or less per month:	\$7,987.9	Per/Mcf	\$7,987.9	Per/Mcf	\$0.0000 0.00%
Next 14,700 Mcf per month:	\$7,549.9	Per/Mcf	\$7,549.9	Per/Mcf	\$0.0000 0.00%
Over 15,000 Mcf per month:	\$7,269.9	Per/Mcf	\$7,269.9	Per/Mcf	\$0.0000 0.00%
Minimum Charge: The Base Charge					
Non-Residential Service					
Monthly Base Charge:	\$40.00	Per meter	\$42.11	Per meter	\$2.11 5.28%
Commodity Charge:					
First 300 Mcf or less per month:	\$7,987.9	Per/Mcf	\$7,987.9	Per/Mcf	\$0.0000 0.00%
Next 14,700 Mcf per month:	\$7,549.9	Per/Mcf	\$7,549.9	Per/Mcf	\$0.0000 0.00%
Over 15,000 Mcf per month:	\$7,269.9	Per/Mcf	\$7,269.9	Per/Mcf	\$0.0000 0.00%
Minimum Charge: The Base Charge					
Rate G-2, Interruptible Sales Service					
Monthly Base Charge:	\$30.00	Per delivery point	\$33.09	Per delivery point	\$3.09 10.30%
Commodity Charge:					
First 15,000 Mcf or less per month:	\$6,173.6	Per/Mcf	\$6,193.9	Per/Mcf	\$0.0203 0.33%
Over 15,000 Mcf per month:	\$5,913.6	Per/Mcf	\$5,913.6	Per/Mcf	\$0.0000 0.00%
Minimum Charge: The Base Charge plus any Transportation Fee and EFM facilities charge					
Rate T-3, Interruptible Transportation Service					
Monthly Base Charge:	\$350.00	Per meter	\$369.81	Per meter	\$19.81 5.66%
Meter Charge:	\$50.00		\$50.00		\$0.00 0.0%
Administrative Charge:					
Commodity Charge:					
First 15,000 Mcf or less per month:	\$6,799.0	Per/Mcf	\$6,819.9	Per/Mcf	\$0.0219 0.32%
Over 15,000 Mcf per month:	\$6,636.0	Per/Mcf	\$6,647.9	Per/Mcf	\$0.0117 0.18%
Rate T-4, Firm Transportation Service					
Monthly Base Charge:	\$350.00	Per meter	\$360.32	Per meter	\$10.32 2.95%
Meter Charge:	\$50.00		\$50.00		\$0.00 0.0%
Administrative Charge:

Special meter reading charge:	No charge		No charge		\$0.00 0.0%

*Mcf = 1,000 cubic feet

The change in rates is based on a proposed new tariff provision: A System Development Rate (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The SDR is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expand up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,007,332 or 2.33% for residential consumers, and approximately \$1,247,156 or 2.93% for commercial consumers, and approximately \$332,253 or 2.93% for industrial consumers. Charges from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.13%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.38%. The average monthly bill for industrial consumers will increase approximately \$59.55 or 1.86%. The maximum amount a customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSGC may enter rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSGC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene. Intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSGC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSGC's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSGC listed below:

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas services within the Commonwealth of Kentucky on the 30th day of July, 2014 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Rate Classifications	Present Rates (Effective August 1, 2014)		Proposed Rates		Rate Change / Increase / Decrease / % Change
	Charge	Unit	Charge	Unit	
Rate G-1, General Sales Service					
Residential Service					
Monthly Base Charge: Commodity Charge	\$16.00	Per meter	\$16.67	Per meter	\$0.67 4.19%
First 300 Mcf or less per month	\$7.9879	Per/Mcf	\$7.9879	Per/Mcf	\$0.0000 0.00%
Over 15,000 Mcf per month	\$7.5499	Per/Mcf	\$7.5499	Per/Mcf	\$0.0000 0.00%
Over 15,000 Mcf per month	\$7.2899	Per/Mcf	\$7.2899	Per/Mcf	\$0.0000 0.00%
Minimum Charge: The Base Charge					
Non-Residential Service					
Monthly Base Charge: Commodity Charge	\$40.00	Per meter	\$42.11	Per meter	\$2.11 5.28%

Read meter	\$12.00		\$12.00		\$0.00 0.0%
Special meter reading charge	No charge		No charge		

Mcf = 1,000 cubic feet

The change in rates is based on a proposed new tariff provision: A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,067,352 or 2.93% with increases of approximately \$1,247,156 or 2.03% for residential consumers, and \$487,943 or 2.03% for commercial consumers, and approximately \$332,253 or 2.93% for industrial consumers. Charges from other gas revenues will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.13%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.38%. The average monthly bill for industrial customers will increase approximately \$95.95 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSC may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene. Intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSC listed below.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement. All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,607,352 or 2.93% with increases of approximately \$1,247,150 or 2.93% for residential consumers, and \$187,203 or 2.93% for commercial consumers, and approximately \$332,233 or 2.93% for industrial consumers. Charges from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.07 or 1.13%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.28%. The average monthly bill for industrial consumers will increase approximately \$0.55 or 1.80%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.
 The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSC may order rates to be changed that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.
 Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.
 Any person may submit a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSC listed below.

Public Notice

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on the 30th day of July, 2014 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPS-C"), proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territories served by Atmos Energy are as follows:

Rate Classifications	Present Rates (Effective August 1, 2014)		Proposed Rates		Rate Change	
	Charge	Unit	Charge	Unit	\$ Change	% Change
Rate G-1, General Sales Service						
<u>Residential Service</u>

Read meter	\$12.00		\$12.00		\$0.00	0.0%
Special meter reading charge	No charge		No charge			

*Mcf = 1,000 cubic feet

The change in rates is based on a proposed new tariff provision A System Development Rate (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval. The tariff also sets forth the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,667,252 or 2.93% for commercial consumers, and approximately \$302,253 or 2.93% for industrial consumers. Charges from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.07 or 1.13%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.38%. The average monthly bill for industrial customers will increase approximately \$0.55 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPS-C may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPS-C within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted before the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPS-C at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPS-C's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rates may be submitted to the Public Service Commission by mail or through the Public Service Commission's web site. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPS-C listed below.

*Mcf = 1,000 cubic feet.
The change in rates is based on a proposed new tariff provision: A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval. The Rider also sets the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,607,353 or 2.03% with increases of approximately \$1,471.64 or 2.93% for residential consumers, and \$487,943 or 2.93% for commercial consumers, and approximately \$332,253 or 2.03% for industrial consumers. Changes from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.17%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 3.28%. The average monthly bill for industrial consumers will increase approximately \$20.55 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPS-C may enter rates that differ from the proposed rates contained in this notice. Such a action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in the matter may, by written request to the KPS-C within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPS-C at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPS-C's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPS-C listed below.

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on the 30th day of July, 2014 pursuant to Kentucky Revised Statute 276.180 and the Rules of the Public Service Commission of Kentucky, respectively, filed its notice to the Kentucky Public Service Commission ("KPSOC"), proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Table with columns: Rate Classifications, Present Rates (Effective August 1, 2014), Proposed Rates, Rate Change Increase / (Decrease) \$ Change, Rate Change % Change. Rows include Rate G-1, General Sales Service; Rate G-2, Interruptible Sales Service; Rate T-3, Interruptible Transportation Service; Rate T-4, Firm Transportation Service; and Special Charges.

The change in rates is based on a proposed new tariff provision

A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G 1, G 2, T 3 and T 4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to support new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,067,252 or 2.93% with increases of approximately \$1,247,156 or 2.93% for residential consumers, and \$847,943 or 2.93% for commercial consumers, and approximately \$30,252 or 2.93% for industrial consumers. Charges from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.12%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.38%. The average monthly bill for industrial consumers will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSOC may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSOC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSOC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSOC's office at website listed below.

Any person who obtains a copy of the application, testimony or other documents or examines the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission's office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSOC listed below.

1999 Dodge Ram 1500, VIN #2B3KFK23W0TM143007, no known lien holder, owned by Shane L. Hackett of 853 Cardwell Ln., #15, Frankfort, KY 40601. Sale date Oct. 20, 2014.
Central Kentucky 859-225-1225 and 502-660-1550

MASTER COMMISSIONER'S SALE
In order to comply with the orders of the Anderson Circuit Court, the Master Commissioner will sell the property described in the following actions on Thursday, October 30, 2014 at 11:00 a.m. in the Anderson County Courthouse, Lawrenceburg, Kentucky. The property shall be sold to raise the amounts herein after set forth, together with interest and the costs of this action, and upon the following terms and conditions (unless otherwise indicated):
(1) At the time of the sale, the successful bidder shall either pay cash or make a deposit of ten percent (10%) of the purchase price, with the balance on credit for thirty (30) days. In the event the successful bidder elects to credit the balance, he or she will be required to post bond and furnish surety acceptable to the Master Commissioner. The bond shall be for the unpaid purchase price and bear interest and the rate of twelve percent (12%) per annum until paid in full.
(2) PLEASE NOTE THE real estate SHALL BE SOLD SUBJECT TO ALL city, state, county and school real estate taxes, whether current or delinquent.
(3) Easements, restrictions, stipulations and agreements of record in the Anderson County Clerk's Office. Assessments for public improvements levied against the property, any facts which an inspection

and accurate survey of the property may disclose and any and all planning and zoning regulations imposed upon the subject property.
(Where the real estate has insurable improvements, the successful bidder shall, at his or her own expense, carry title and extended coverage insurance on said improvements from the date of sale until the purchase price is fully paid, to the extent of the Court appraised value of said improvements or the unpaid balance of the purchase price, whichever is less, at a minimum, with a loss charge payable to the Master Commissioner or the appropriate insurance. Failure of the successful bidder to effect such insurance shall not affect the validity of the sale or the successful bidder's liability thereunder, but shall entitle, but not require, the Plaintiff(s) to effect said insurance and furnish the policy or evidence thereof to the Master Commissioner, if it so desires, and the premium thereon or the property portion thereof shall be charged to the successful bidder's cost.
(4) The amount herein otherwise sold free and clear of any right, title and interest of all parties to the action and of their liens and encumbrances thereon, excepting easements and restrictions of record in the Anderson County Clerk's Office, and such right of redemption which may exist in favor of the United States of America (as the Defendant(s)), and any matters disclosed by an accurate survey and inspection of this property.

LEGAL NOTICES

MASTERS COMMISSIONER'S SALE
In order to comply with the orders of the Anderson Circuit Court, the Master Commissioner will sell the property described in the following actions on Thursday, October 30, 2014 at 11:00 a.m. in the Anderson County Courthouse, 100 West Main Street, Lexington, Kentucky. The property shall be sold to raise the amounts herein-after set forth, together with interest and the costs of the action, and upon the following terms and conditions (unless otherwise indicated):
(1) At the time of the sale, the successful bidder shall either pay cash or make a deposit of ten percent (10%) of the purchase price with the balance on or before thirty (30) days. In the event the successful bidder elects to credit the balance, he or she will be required to post bond and furnish a satisfactory receipt to the Master Commissioner. The bond shall be for the unpaid purchase price and court interest and the rate of twelve percent (12%) per annum until paid in full.
(2) PLEASANT NOTE: The real estate SHALL BE SOLD SUBJECT TO all city, county, and school real estate taxes, whether current or delinquent.
(3) Easements, restrictions, stipulations and agreements of record in the Anderson County Clerk's Office, Assessments for public improvements levied against the property, any facts which an inspection and accurate survey of the property may disclose and any and all planning and zoning regulations imposed upon the subject property.
(4) Where the real estate has insurable improvements, the successful bidder shall, at his or her own expense, carry fire and extended coverage insurance on said improvements from the date of sale until the purchase price is fully paid to the extent of the Court appraised value of said improvements or the unpaid balance of the purchase price, whichever is less, of a minimum, with a keep clause payable to the Master Commissioner or the appropriate Plaintiff. Failure of the successful bidder to effect such insurance shall not affect the validity of the sale or the successful bidder's liability thereunder, but shall create, but not require, the Plaintiff(s) to effect said insurance and furnish the policy or evidence thereof to the Master Commissioner. If it is desired, and the premium thereon or the property portion thereof shall be charged to the successful bidder as the successful bidder's cost.
(5) The property shall otherwise be sold free and clear of any right, title and interest of all parties to the action and of their heirs and encumbrances thereon excepting easements and restrictions of record in the Anderson County Clerk's Office, and such right of redemption which may exist in favor of the United States of America or the Defendant(s), and any motion filed by an accurate survey and inspection of the property.

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on the 30th day of July, 2014 pursuant to Kentucky Revised Statute 279.100 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective November 1, 2014.
The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Rate Classifications	Present Rates (Effective August 1, 2014)		Proposed Rates		Rate Change (Increase / Decrease)	
	Charge	Unit	Charge	Unit	\$ Change	% Change
Rate 0 - 1, General Sales Service

Read meter	\$12.00	\$12.00	\$0.00	0.0%		
Special meter reading charge	No charge	No charge				
Mcf: 1,000 subject						

The change in rates is based on a proposed new tariff provision. A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos Rate Schedules 0-1, 0-2, 0-3 and 0-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects of additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,000,252 or 2.93% with increases of approximately \$1,247,156 or 2.03% for residential consumers, and \$487,043 or 2.50% for commercial consumers, and approximately \$332,252 or 2.97% for industrial consumers. Changes from other gas revenues will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.10%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.03%. The average monthly bill for industrial consumers will increase approximately \$59.55 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSC may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC within thirty (30) days after publication or mailing of this notice of this proposed rate change, request to intervene. Intervention may be granted beyond the thirty (30) day period for good cause shown. Requests for intervention should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of this rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.

Any person may obtain a copy of this application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's web site. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSC listed below.

Meter test charge	\$20.00	\$20.00	\$0.00 0.0%				

The change in rates is based on a proposed new tariff provision. A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both as associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement. All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,667,352 or 2.91% with increases of approximately \$1,247,156 or 2.91% for residential customers and \$447,941 or 2.93% for commercial customers, and approximately \$33,253 or 2.93% for industrial customers. Charges from other gas revenue will not increase. The average monthly bill for residential customers will increase approximately \$0.67 or 1.13%. The average monthly bill for commercial customers will increase approximately \$2.11 or 0.35%. The average monthly bill for industrial customers will increase approximately \$39.55 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation. However, the KPS-C may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may be written to request the KPS-C within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene, intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the name and interest of the party and be submitted to the KPS-C at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPS-C's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rates may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. All copies of the application and all related documents are available for public review at the website listed below of Atmos and the KPS-C listed below.

The change in rates is based on a proposed new tariff provision:

A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,067,352 or 2.93% with increases of approximately \$1,247,156 or 2.93% for residential consumers, and \$487,843 or 2.93% for commercial consumers, and approximately \$332,253 or 2.93% for industrial consumers. Charges from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.13%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.38%. The average monthly bill for industrial customers will increase approximately \$59.55 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSC may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to Intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's web site. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSC listed below:

LEGAL NOTICE WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas services within the Commonwealth of Kentucky, on the 30th day of July, 2014 pursuant to Kentucky Revised Statute 276.160 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Rate Classifications	Present Rates (Effective August 1, 2014)		Proposed Rates		Rate Change Increase / (Decrease)	
	Charge	Unit	Charge	Unit	\$ Change	% Change
Rate G-1, General Sales Service Residential Service						
Monthly Base Charge:	\$16.00	Per meter	\$16.67	Per meter	\$0.67	4.19%

Special meter reading charge	No charge		No charge		\$0.00	0.0%
¹ Mcf = 1,000 cubic feet						

The change in rates is based on a proposed new tariff provision: A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,067,352 or 2.93% with increases of approximately \$1,247,156 or 2.93% for residential consumers, and \$487,943 or 2.93% for commercial consumers, and approximately \$332,253 or 2.93% for industrial consumers. Charges from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.13%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.38%. The average monthly bill for industrial customers will increase approximately \$59.55 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSC may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's web site. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSC listed below.

The change in rates is based on a proposed new tariff provision:

A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,067,352 or 2.93% with increases of approximately \$1,247,156 or 2.93% for residential consumers, and \$487,843 or 2.93% for commercial consumers, and approximately \$322,253 or 2.93% for industrial consumers. Charges from other gas revenue will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.13%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.38%. The average monthly bill for industrial customers will increase approximately \$59.55 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSC may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to Intervene; Intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to Intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's web site. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSC listed below:

Legal Public Notice NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on the 30th day of July 2014 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPS-C"), proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Table with 4 columns: Rate Classification, Present Rates (Effective August 1, 2014), Proposed Rates, Rate Change (Increase / Decrease) in \$ and %. Rows include Residential Service, Firm Transportation Service, Special Charges, and Interim Service.

The change in rates is based on a proposed new tariff provision: A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G, I, G, 2, T, 3 and T, 4.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,067,332 or 2.93% with increases of approximately \$1,217,136 or 2.93% for residential consumers, and \$849,913 or 2.93% for commercial consumers, and approximately \$32,233 or 2.93% for industrial consumers.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPS-C may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPS-C within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown.

Legal Public Notice

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on the 10th day of July, 2014 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Rate Classification	Present Rates (Effective August 1, 2014)		Proposed Rates		Rate Change Increase / Decrease	
	Charge	Unit	Charge	Unit	\$	%
Rate G-1, General Sales Service Hydrocarbon Service Monthly Base Charge Commodity Charge First 100 Mcf per month Next 14,700 Mcf per month Over 15,000 Mcf per month Minimum Charge: 100 Mcf Base Charge	\$16.00	Per meter	\$14.87	Per meter	\$1.13	-7.1%
Rate G-2, Intermediate Sales Service Monthly Base Charge Commodity Charge First 100 Mcf per month Next 14,700 Mcf per month Over 15,000 Mcf per month Minimum Charge: 100 Mcf Base Charge	\$32.00	Per meter	\$31.01	Per meter	\$9.99	-3.1%
Rate G-3, Interruptible Transportation Service Residential only service Monthly Base Charge Next Charge Administrative Charge Commodity Charge First 100 Mcf per month Next 14,700 Mcf per month Over 15,000 Mcf per month	\$32.00	Per meter	\$32.81	Per meter	\$8.81	2.8%
Rate T-4, Firm Transportation Service Transportation only service Monthly Base Charge Water Charge Administrative Charge Commodity Charge First 80 Mcf for less than month Next 14,700 Mcf per month Over 15,000 Mcf per month	\$35.00	Per meter	\$30.22	Per meter	\$4.78	-13.6%
Special Charges Sum of new service with meter set Burial service, not in use, installed Turn on service, meter and only meter Respected delinquent service Interrupted service or temporarily all customer projects Termination or field relocation charge Meter test charge Customer location for electronic flow measurement Class 1 EM Class 2 EM Seasonal charge Reserved check charge Late payment charge Read meter Special meter setting charge	\$14.00		\$14.00		\$0.00	0.0%

The change in rates is based on a proposed new tariff provision: A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G, I, G, 2, T, 3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval. The tariff also sets forth the mechanism for calculating the SDR revenue requirement. All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,167,352 or 2.93% with increases of approximately \$1,217,156 or 2.93% for residential customers, and \$987,913 or 2.93% for commercial customers, and approximately \$322,253 or 2.93% for industrial customers. Charges from other gas revenue will not increase. The average monthly bill for residential customers will increase approximately \$0.67 or 1.13%. The average monthly bill for commercial customers will increase approximately \$2.11 or 0.36%. The average monthly bill for industrial customers will increase approximately \$59.55 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation level or usage; this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation level.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSC may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice. Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC, within thirty (30) days after publication or mailing of this notice of the proposed rate change, request to intervene. Intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the office of Atmos listed below or at its website or the Commission office or through the Public Service Commission's web site. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSC listed below:

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas service with the Commonwealth of Kentucky, on the 30th day of July, 2014 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPSC"), proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Table with columns: Rate Classifications, Present Rates (Effective August 1, 2014), Proposed Rates, Rate Change (Increase/Decrease) % Change. Includes Residential Service, Non-Residential Service, Interchangeable Sales Service, Interchangeable Transportation Service, and Firm Transportation Service.

Mcf = 1,000 cubic feet. The change in rates is based on a proposed new tariff provision: A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The Rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible. Atmos may expend up to \$5,000,000 annually for such projects or additional amounts subject to Public Service Commission approval.

The tariff also sets forth the mechanism for calculating the SDR revenue requirement. All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,067,332 or 2.93% for residential consumers, and \$487,043 or 2.93% for commercial consumers, and approximately \$322,253 or 2.93% for industrial consumers. Charges from other rate schedules will not increase. The average monthly bill for residential consumers will increase approximately \$0.67 or 1.13%. The average monthly bill for commercial consumers will increase approximately \$2.11 or 0.38%. The average monthly bill for industrial consumers will increase approximately \$9.55 or 1.86%. The impact on each customer's average bill will vary according to individual consumption or transportation levels. However, this impact can be determined by each customer by applying the proposed rates listed above to their respective average consumption or transportation levels.

The rates contained in this notice are the rates proposed by Atmos Energy Corporation, however, the KPSC may order rates to be charged that differ from the proposed rates contained in this notice. Such action may result in rates for customers other than the rates included in this notice.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPSC within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene. Intervention may be granted beyond the thirty (30) day period for good cause shown. Requests to intervene should set forth the grounds for the request including the status and interest of the party and be submitted to the KPSC at the address listed below. Any person who has been granted intervention by the Commission may obtain copies of the rate application and any other filings made by the utility from the utility's website or by contacting Atmos at the address listed below or from the KPSC's office or website listed below.

Any person may obtain a copy of the application, testimony or other documents or examine the rate application and any related filings at the offices of Atmos listed below or at its website or the Commission's office or its website listed below. Written comments regarding the proposed rate may be submitted to the Public Service Commission by mail or through the Public Service Commission's website. A copy of the application and all related documents are available for public review at the offices and websites of Atmos and the KPSC listed below:

NOTICE OF PROPOSED CHANGES IN GAS TARIFFS WHICH WILL RESULT IN INCREASED CHARGES

Notice is given that Atmos Energy Corporation ("Atmos Energy"), a public utility furnishing natural gas service within the Commonwealth of Kentucky, on the 10th day of July, 2014 pursuant to Kentucky Revised Statute 278.180 and the Rules of the Public Service Commission of Kentucky, respecting tariffs, filed its notice to the Kentucky Public Service Commission ("KPS-C") proposing to change its gas rates effective November 1, 2014.

The present and proposed rates charged in all territory served by Atmos Energy are as follows:

Table with columns: Rate Classifications, Present Rates (Effective August 1, 2014), Proposed Rates, Rate Change (Increase / Decrease) in \$ and %.

Table with columns: Rate Classifications, Present Rates (Effective August 1, 2014), Proposed Rates, Rate Change (Increase / Decrease) in \$ and %.

The change in rates is based on a proposed new tariff provision.

A System Development Rider (SDR) applicable to all customers receiving gas service under Atmos' Rate Schedules G-1, G-2, T-3 and T-4. The rider is designed to encourage economic development and job growth by allowing Atmos to recover operational expenses, capital expenditures or both associated with the expansion and/or improvement of infrastructure to existing and/or new service areas not otherwise feasible.

All other charges not specifically mentioned herein shall remain the same as those presently in effect. The proposed rates will result in an overall approximate increase in the amount of \$2,067,352 or 2.93% with increases of approximately \$1,217,156 or 2.93% for residential consumers, and \$487,943 or 2.93% for commercial consumers, and approximately \$332,253 or 2.93% for industrial consumers.

Any corporation, association, or person with a substantial interest in this matter may by written request to the KPS-C within thirty (30) days after publication or mailing of this notice of the proposed rate changes, request to intervene; intervention may be granted beyond the thirty (30) day period for good cause shown.
