PUBLIC SERVICE
COMMISSION

To Whom It May Concern:

I am sure you have already made your decision to increase the rates, so why am I writing to you? I, as an American citizen, have the right to voice my opinion.

The increase will affect many people which may be the deciding factor whether they continue to drop their landline phones or go to using cell phones, which a lot of people have done already.

In our neighborhood we have just had the fiber optic put in by West Kentucky Rural Telephone Coop. Corp. This was mandated and we did not have a choice. It was mainly for broadband services. It was my understanding that the money to do this was a grant and we were told it was no cost to the customers.

I do not agree with this increase.

Thank You.
