PUBLIC SERVICE  
COMMISSION

Jeff Derouen  
Executive Director  
Public Service Commission  
Frankfort, Kentucky 40601

Dear Sir:

I am a customer of Mountain Water District of Pike County, Kentucky and concerned about their application (Case Number 2014-00342) to raise the rates on the water and sewer.

I am asking you to please scrutinize the situation as closely as you can before you allow them to proceed.

In my personal opinion, that is a very poorly managed public service, if they would manage what money they take in per month they would have a surplus instead of a deficit, and have better service.

Before you make a decision, please figure what financial condition Mountain Water would be in if they managed the public service "in-house" without all of the out sourcing that they do.

Once again, the area that Mountain Water serves is probably the poorest area in the United States with a large majority of disabled and aged people on fixed incomes and a lot of sickness.

I am sure that you will make the right decision.

Thank you for your time.

Sincerely yours,

Dean Sanders
