DEAR SIR:

This is in reference to the Public Service Commission Hearing In regards to the request for a rate increase in monthly water billing and the Kentucky Power Company's request also.

I am in total objection to a rate increase due to the fact people who are on a fixed SSI and Social Security income cannot afford to pay any higher utility bills. I for one am paying far too much for electric power as it is.

Also I think it should be that if you don't use 2000 gallons of water per month then this unused amount should be carried forward as I am only using about 300 to 400 gallons per month.

I think it is ridiculous to ask for a increase because they can it needs to be investigated by the PSC.

Very truly;
