At 83 I already find my electric bill my most
alarming bill. What I ~~think~~ ^{think} it dose
no good, to change to gas because ^{they} just increase
their fees.

As ~~a~~ citizen I resent ~~for~~ ^{for} all their
environmental clean up (that is very nes-
essary) They saw the destruction of land and
poor health of people long ago and didnt stop!
We know they ask a .57 raise, so shock will still
get them more than they deserve. Hands tied!
