

Public Service Commission -

I am writing this to say  
how horrified I am at the  
rate increase KUL has  
proposed. Please, please  
stop this from happening!

It is time to stop the  
bleeding of the people (customers)

of KUL. We are not stupid.  
Only the stock holders get richer  
while we struggle to feed  
our selves & pay for medicine -

I urge you to, I plead with  
you to refuse this WASTE  
rate increase -
