

Dec. 3, 2014.

I am writing this letter to
say that I cannot afford a
rate increase that large in my
electric bill.

2014-371

I am currently on the budget plan
and I am paying \$115.00 a mo.
My income is \$2200.00 a mo. with
no raise on my pension in sight. As
you can see I have to count every
penny to pay my bills. If you get
an increase the other companies will
ask for one too.

Please consider what is best for the
consumer and not for greed.

Thank you,

391-Valley Lane
Lebanon, KY 40033
