Dear Jeff,

I disapprove of this Bill.
I am very apposed to the
rates in our Electric Bills.
that are going up so much
on our Monthly Bills each month.
I am so disappointed that the
2 companies, KU and Ige that
collect our bills each month is so bad.
I live on 1092.00 a month and
my Bill each month is from
\$86.18 this month. it goes
up every month till it gets to be
up to \$139.00 a month to more
sometimes \$169.00 or so. The Electric
Bill takes a big chunk of my Electric
Bills each month of the \$1092.00 a
month I live on.

I live by myself at 75 years
old. do very little work and
my husband passed away in 2003
and there is no way that I can
use the Electric to cost so much.
I do 2 loads of Laundry a week
sometimes less. I and I have a
microwave oven I use instead
of my stove + oven, TV. and a
computer, which I use very
little as I don't know much about
it. I love the commercials that say
KU. cares about its customers. it is
so funny, as the Electric companies →

Ha Ha

Care less about us. it is Not
 The Coal industry that is
 Causing the problem, as the Coal
 Company of the Coal Company
 Has been closing for years. Now
 it is just the Electric Companies
 Wanting more + more money from
 each person. they are only
 interested in themselves. as
 every year it gets Rates that
 is Very hard to pay the Bills
 from what we draw in Social Security
 benefits. for us that make the
 bills so hard to pay. for
 every Raise the Electric Company
 Wants every year. That Raises our
 Electric bills so much every year.
 Before the LGE. Company Emerged
 With Ky. our Bills were
 Anywhere for \$39.00 a month up to
 \$60.00 a month. then just when LGE
 Went into Ky it immediately went
 up to \$100.00 a month every
 month, and has been up every
 since. I have a Air Conditioner
 with heat pump. and I Run it
 on 68 to 70 degrees to save on
 my Electric Bills. makes no difference at
 all. please, do not let the Rates
 go up so high as it is so
 Hard now to pay my Bills I thank so
 much
