Dear Sir or Madam:

I am a customer of the Kentucky Utilities Company ("KU"), and I oppose this proposed rate increase requested by KU.

A report by Energy Ventures Analysis notes inflation has outpaced income growth for many Americans with the lower-earning half of U.S. households experiencing a 25% decline in real income from 2001-2014. As KU customers, we cannot afford the present high cost of electricity and often find ourselves doing without necessities to pay our current bills.

Please do not approve this increase requested by Kentucky Utilities Company, which if approved would only place an even greater burden on the backs of those who can least afford it.

Thank you.

Yours truly,
