PUBLIC SERVICE
COMMISSION

Dec 4th 2014

Dear Public Service Commissioners:

This is a letter concerning K.U.'s request for a rate increase on the backs of their customers.

If K.U. can't afford to build this plant then they should ^{not} ask us to foot the bill for it.

Now is the time for you commissioners to do your job and stop this from happening. So when this rate increase is brought before you all then pull your heads out of your B-----'s and do the right thing for their customers.
