Re: LG&E rate increase

RECEIVED

DEC 2 2014

PUBLIC SERVICE
COMMISSION

Commissioners,

I am writing today in the hope I might persuade the commission to deny the rate increase proposed by LG&E. I own both residential and industrial property serviced by LG&E.

It has become increasingly clear over the years that LG&E, a quasi-government entity has become bloated and top heavy. It is time for LG&E to begin to live within their means as consumers must. Consumers are constantly asked to pay more from government bureaucracies with the power to tax or raise rates. We can no longer be asked to pay more for the same levels of service or competency.

Please deny any rate increase.

Sincerely,

David Beck
