Subject: Re: KY PSC Utility Inquiry

My concern is that my income and a lot of other citizens do not have the income to pay for a raise for LG&E
I have not called my utility co there's no use in that and I did not get a message from you.

State the nature of your concern: My concern is that my income is not enough to keep paying for LG&E to raise their rates. I am on social security which is \$740.00 a month I have other bills which have to be paid also such as my house payment, LG&E, water, MSD, medicine, insurance, home phone, after all this is paid I am lucky if I have \$50.00 left to buy other things needed. I am not just one person in this shape there are thousands of people who aren't making as much as I am from social security and I sure can not go to social security and ask them for a raise so I can pay for any repairs that may be needed. LG&E has gotten so many raise's now and the more you give them the more they want. I strongly disagree with any raise that LG&E is asking for they make million's of dollars if they didn't they would not be in business what we need is for another electric and gas company to come into Louisville, KY to give this LG&E competition and the commission needs to learn to say no to companies that are asking for raises. Thank you

Ms Drury
