Case: 1400372

COMMENTS: While it's understandable that
increases in fees to cover inflationary cost and
new project cost, at issue is how to meet those
demands and if there aren't alternative sources.
Since these cost are not included in the cost of living
index, customers on fixed incomes have no way to
provide additional, personal income. Therefore, it
isn't sustainable. Also when project cost are
covered, when are they removed from cost?
