To whom it concerns,

2014-00396

This is in regard to the increase in electric rates that AEP is requesting.

So many that are on fixed incomes and cannot work to get more, have to go without to pay these bills.

My electric bill is \$130 this month - keeping my heat on 63° in daytime - 59° at night by wearing extra clothing and washing clothes once a week. This about all I can do.

As you know there are many other bills monthly that must be paid

Please give this request
(not to grant AEP a raise)
some consideration

Thank you
Patricia Carter
