PUBLIC SERVICE
COMMISSION

To whom it may concern:

1. AEP should not get a raise!
2. They put people in Ky. out of work and want us to pay for a plant in W.Va not another site in Ky.
3. They get big tax breaks from the government!
4. When I buy something big or small - I pay for it!
I do not call on you or my family or friends to pay for it.
5. Over the years they ask for big raises & then you all give them smaller ones. (It is Still Big to Us!)
6. Columbia Gas just raised our rates from 50° to over 60° dollars higher. My Budget was 70° a month & I was always ahead. Now my Budget is 126° But they charged 139° . I went with IGA - They are playing games like the oil companies with the gas prices. They can charge what they want.
7. Can you all check the real IRS Taxes on these companies. Lets go back to Regulations on Utilities. At Least then we only pay for our Electric, Gas, Telephone not 10 other made up charges to add to the cost of our Bills
