TO: Kentucky Public Service Commission (PSC)

my Husband and myself are very much opposed to proposed Rate Hikes of Kentucky Power Company and Mountain Water District. We feel their Rates are already to high at present. Please consider the poor economy and job loss here. We are a poor state and the minimum wage can't afford these rate hikes. They must decide whether to, eat, freeze, bath or drive to a job and pay Insurance (health or Auto) forced to do without. or use other means of heat, or water, or sewer They can ~~scoble~~ feed themselves. most who try to stay warm with other means do so at very great risk to life + limb. Thanks, Dalene Stanley
