PUBLIC SERVICE
COMMISSION

So it may concern

I just read in Martin Co. Mountain Citizen news paper about the water rate increase. I don't understand why people can't afford it. A lot of people is on a fixed income, some people don't have a job, and can't feed their families. Kids don't have enough to eat. I know my wife and I are on a fixed income by the time we pay our bills. We don't have any money left. By the grace of God we do have food, sometimes from Food Banks. Please think about little kids going to bed hungry.

Thank You, God Bless
