Dear Sir,

I wish to protest the McKinney water district trying to raise our rates. I know this letter won't do any good, because I have protested all summer, trying to keep the School board, the Library board, the Ambulance board and the County fiscal Court from raising our property taxes. Every one of them got by with raising them. Why can't they manage without putting a burden on the taxpayers. My husband died and I'm all alone trying to keep a roof over my head. please consider the poor people.

Thank you  
A Concerned Citizen
