Public Service  
Commission

Dear Kentucky Public Service Commission,

I am writing to ask you not to allow the Kentucky-American Water Company to increase the water service revenues. The proposed date of the rates is for service rendered on and after February 28, 2016.

The Kentucky-American Water Company charges more than enough for their Infrastructure Program Surcharge. I recently had them to come out and check our meter. It was fine. My plumbing is fine - I don't wash my car, I have efficient appliances, I don't shower daily, I don't run water, I watch flushing the toilet and all they can say is that if I would learn to conserve my use of water - I get tired and worn out from being so conservative and watch big companies watching their grass and water running in the streets - I don't water my grass - I wait for the rain to come.

Come on people you are killing the Lexington people and others. Having been retired now three years my income goes to the constant increases in the water bill, electric bill, Gas bill -

doctors, taxes and anybody who sits in a place  
of authority to rob the poor.

Don't tell me about programs to help! Just quit  
giving my money to unjust people.

Thank you.

A very frustrated customer
