

Public Service Commission

Melody Ragland

RECEIVED

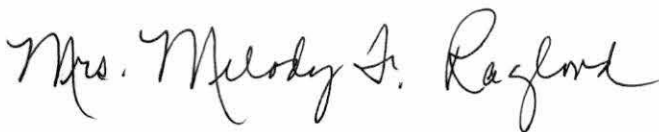

FEB 5 2016

Public Service
Commission

To Whom It May Concern:

We received your letter to raise our rates up to 17% today and I for one was shocked and amazed. I noticed that you didn't put how much your company made for the past three years, or how much the CEO or the top executives took home either. As a consumer who hasn't had a raise in pay for the past three years, I do not want or feel that it is necessary for your company to get a 17 % raise in water. How ridiculous. If you were sitting in my seat, I think you would feel the same. I pray that more than myself will write you to greedy little people and let you know that this is a total travesty of justice.

Sincerely,

Mrs. Melody F. Ragland
