Subject: Proposed rate increase Case # 2016-00370

I feel that the proposed meter charge of \$22 (from \$10.75) is totally out of line. KU is always suggesting methods to decrease our energy usage, thus saving money for the customer. I can understand an increase in the charge per kwh, but for those of us trying to reduce our carbon footprint it does not make sense. Many customers are on fixed incomes (myself included) and an increase of this magnitude is unconscionable.

Raise the cost per kwh so that all customers will be equally affected, but don't hurt the little guy just because they want electricity.

Sincerely,
Gary Conlan

Subject: Rate Hike

I am against the Proposed Rate Increase for KY Utilities. My Wife and I are Senior Citizens 79 and 77 years old we are being forced to leave our home with all the increases in the cost of living , going higher and higher. Whatever happened to the so called golden years.

Please do not grant this increase.

Mr. & Mrs. Richard Juliano
