Commission

CASE# 2016-00371

To whom it may concern;

I am writing this letter to say I oppose any rate hike by L. S. & E. It seems they have applied for 2013 rate hikes this year. Corporate greed at its best.

People are getting hit enough with water rate hikes, school taxes, toll fees and now this. Enough is enough.

Corporate greed is rampant in this country not only L. S. & E., but food, medical, pharmaceuticals. Politicians are bought & sold by corporations every day. I hope this Commission is not influenced by this.
