Gentlemen: Re: Case No. 2016-00371

I strenuously object to L, G, & E, AGAIN,
asking you to increase gas and electric
rates and money on me, and every L, G, & E
customer. L, G, & E is not even a Kentucky
company! It's located in a New England
state. Why did the Kentucky Public Commission
allow L, G, & E to be sold to a company
not EVEN located in Louisville?

I am on Social Security, and disability,
AND retired. I AM ON a limited income.
I don't get increases in income; And, these
past 8 years = No cost-of-living increases because
this present Presidential Administration loaded the
Environmental Protection Agency with many inane
regulations. I, AND other customers should NOT
