Public Service Commission,

I am writing RE: the proposed rate change for LG&E services. Being on a fixed income, I do NOT have the bonus of a pay raise on a regular basis. The COLA program does offer slight increases periodically, but NOT on a predictable basis...and usually at a very low rate of increase in pay. LG&E may need to increase their rates (hopefully legitimately), but there should be a sliding scale with minimal increase for folks on a lower fixed income. Therefore, I am asking for myself and all the other retirees who live off of a fixed income for you to reconsider LG&E's proposed rate hikes.

Thank you for your consideration in this matter,

Robertina Filburn
