RE: BULLITT UTILITIES, INC.

CASE # 2016-00401

HUNTERS HOLLOW WASTEWATER

TREATMENT PLAN

I received a Legal Notice yesterday regarding the above mentioned Proposed Charges of a 63% Rate Charge to recover the emergency Costs incurred from this plan.

I live in Hunters Hollow #2 and we are a small community of young people raising children and senior citizens. I am a 75 year old citizen on a monthly fixed-income and expenses of owning a home is out of touch with the economy of today.

PSC granted a rate hike in 1993 to a man that since then neglected the system.

Will this surcharge always be on our bill or will it be forever?
