

Case No. 2016-0002
RECEIVED

FEB 22 2016

Public Service
Commission

Mr Commission

Why ~~stand~~ only why should we fork
up more money for KU to update Surcharge
Plan, when our home, car or other
things ~~have~~ tear up. We take care
of it ourself. The government (which
is us) ask for the update, why don't
they pay for it. Not just KU customers.
what is a person supposed to do
when we're living on Social Security.
Guess you ~~of~~ know we didn't get
a raise this year. Our retirement from
where we work never goes up and
I mean never, But you should see
my face this month when we get our
bill of \$354. any any time I talk
to family & friends most of the talk
is about our Elec Bill, now they're wanting more

PPL (KU) has ask for or going too
3 or 4 raises since I've moved to Kentucky
in 2008. and our Elec Bill is still going
up. All our appliance is the best use
of Elec, even our Christmas tree & light which
we didn't use much this year because
I have heart trouble & my husband spent
2 weeks in Hospital for Colon Cancer surgery

and inspection. We went home
enough to put our tree or 2 strains
of light was all we put up to.
Keep our Grandchildren wouldnt call
us Scruggs.

Thank You -

Anna Lee
