PUBLIC COMMENT FORM

Mail your comments to:
Kentucky Public Service Commission
211 Sower Boulevard, P.O. Box 615
Frankfort, KY 40602.
Or fax to: (502) 564-3460

Name: Thomas Pearce

Address: 511 Market Avenue Louisville Ky 40208

Case: 2016-00027

COMMENTS: I do not think the public service
commission has a quorum. LBE should not
be allowed to increase rates for environmental controls
until they cleanup their ~~at least~~ ~~pollution~~
at Mill Creek and Cave Run. ~~As~~ if they
were to increase rates it should be
to invest in renewable energy like solar
and wind to reduce the need for coal
and natural gas. Fossil fuels are
killing this city and our air and
waters. Please deny this request
for higher rates which will impact
low income households and will not
clean the air or our rivers. No more
investing in coal and natural gas
make them invest in a clean
energy future
