Request: The PSC support Kentucky Attorney General’s opposition to the Kentucky Utilities company and Louisville Gas & Electric’s application adjustment of utility rates and for certificates of public convenience and necessity and protect the public interest in doing so. Also included in this opposition is the system wide installation of AMS Smart meters with no regulated fee option to opt out provided to customers.

Subject: KU rate increase

I would like to add my voice to those protesting the proposed KU rate increase. By raising the basic monthly charge to more than twice the previous rate and slightly decreasing the price per KWH, this increase punishes those with the lowest utility bills, specifically low income people and those who try to conserve energy. The example of a sample lower utility bill sent out by KU would only benefit those with high consumption. Please to not approve this increase. If an increase is really necessary, it should be in the price per KWH, not the basic monthly charge.

Thank you for considering our public opinion comments.

Sincerely,

Dr. Joanne Filkins

Hello Public Service Commission,

My name is Sharon Murphy. I'm emailing the commission in regards to the Kentucky Utilities Rate Case - Case #2016-00370. I'm a young person trying to pay back student loans, provide for myself and help take care of my family who is experiencing hardship due to health reasons. I try my best to keep my bills as low as possible to help them pay for food or medicine. If the weather isn't extremely harsh I can count on my electric bill being $35-$50. The increase service charge of $11.25 ($22-$10.75) would impact my budget. The $11.25 increase may not seem like a lot but for someone like me is already on a tight budget, it is a huge blow. Please do not approve the rate increase.

This email is to oppose the rate increase for KU: 2016-00370. I am particularly concerned about how this will impact low-income residents as well as the impact on further implementation of renewable energy sources.
