Reference Case No. 2016 - 00370

Good Morning,

In the Case # 2016-00370 regarding rate increases for electrical services provided by Kentucky Utilities Company (KGE and KU Energy LLC) I request the Commission deny all proposed rate increases. The basic monthly service charge proposed more than doubles the current charge \$10.75  $\rightarrow$  \$22<sup>00</sup>/<sub>xy</sub>. Being on a fixed incomes, this increase alone would pose a hardship for me & my family. The proposed increase for electric usage is said to be 5.94%, this too would be a hardship.

Please be advised that I protest any & all rate increases proposed by Kentucky Utilities Company. Thank you
