Re: Rate increase for K.U. and L.G. & E.

Ladies/Gentlemen:

Here we go again! Has it been a year since the last rate increase? Do these entities ever budget for improvements? If not, why not?

I can't afford to heat or cool my house since the last increase and I certainly can't afford another \$45.00 per month increase.

Please, show some consideration for Kentucky residents on fixed incomes, and turn down this ridiculously high rate increase.

Sincerely,

Marian C. Burton
