Subject: 2016-00370

Dear Commissioner,

My name is Pam Welborn I am a concerned citizen writing to complain about any proposed rate increase requested by LG&E.

I am requesting an intervention to stop their 6.4% rate increase.

There have been too many rate increases with K.U., and all of our other utilities. This rate increase would affect all of our bills. The cities would have to raise their costs to us to cover their rate increase. Businesses would have to raise their cost to their customers. Schools would be put into a bind with their funding and may have to cut programs that benefit children. Senior citizens and disabled people that live on a fixed income are barely able to pay their bills as it is. Please do not approve a rate increase for K.U. and LG&E.

Thank you,

Pam Welborn
