Public Service Commission

JAN 3 2017

Public Service
Commission

It seems that every few months these public service companies are asking for rate increases. When I was working, no one gave my business increases if money was tight. We learned to live within our means.

KU asks for these huge percentage increases hoping to obtain at least half of their request.

In my opinion, KU needs to live within its means as we senior citizens must do.

Please consider the people who are living from month to month and cannot afford this increase.

Thank you,

Patricia Damron
