I wish to file a  
complaint about the  
proposed rate increase  
by Kentucky Utilities.

I am on a fixed  
income and having to  
pay \$100.00 or more  
plus dollar would  
be a hardship for me,  
I might have to choose  
between food and  
paying the bill.

It would also cause  
me not to be able to  
donate to the Skinner  
Care program.

I am requesting that they not be given the rate increase that they are asking for.

It seem as though every 2 years they come up with various things to request rate increase. I suspect that I am not the only one who is headed for having to choose between food and paying the K.U. Bill.

Sincerely,  
Mary Franklin
