

April 6 2017

To the Public Information Officer:

I am writing to express my opposition to the proposed monthly fee rate hikes for LG & E and KU customers. These rate increases are both extreme and unfair, especially ~~to~~ for lower-income customers who struggle to pay their bills with the current rates.

If LG & E and KU are having difficulty, I think they look for creative and responsible solutions that don't over-burden their customers with additional fees.

Thank you very much for
hearing the public's concerns,
Valerie Viers
