

7/10/17

To Whom it may Concern,

I live in Lexington KY and am writing to voice my strong opposition to the PSC's consideration of KU's proposal to double the fixed monthly charge for electric customers. This rate hike will hurt our family and we will not be able to afford it - we will find ourselves choosing between medicine, food, and electricity. NO to the rate hike! Roberta Buines 40509

I want Pcs to reject the proposal to
raise fixed monthly charge for KU
& gas customers. This will have a
disproportionate effect on the poor and
fixed income. This will discourage new
solar installations, expansion of bus
fleets.

Please consider the most
vulnerable.

Thanks
John Walker
