Address: 2696 931 South Whitesburg Ky. 41858

Case: 2017-00179

COMMENTS: Our power bills are outrageous in this area, for some reason we are the hardest hit area in the state. I don't believe that people in this area use more electric power than other areas. I also don't believe that it cost more for A&R to produce power for this area. This is one of the poorest counties in the state and your company is just adding to the financial burden of the people. While we can do without many things in our life it is very hard to do without electricity but not impossible. Please use your compassion you may have and do not increase our power bills again.

Sincerely, Helew Roberts
