Address: 69 Hospital St Martin, Ky 41649

Case: 2017-00179

COMMENTS: I recently was at your meeting at Prestonsburg, Ky. The people as you heard are very tired of your excuses to raise our rates. How would you big wigs like to try to survive on our small salaries I've lost two daughters in the past eleven months. An in order to bury my lost one. I'm having to pay her funeral bill. I'm suppose to go once monthly to the doctor. An I can't do that. I eat mostly from the food banks. I can't realize how the Power Co. could even think how you would even want to raise our bills. We don't travel in jets, stay in fancy hotels + eat the finest.
you talk about the program's to help with low income people to heat their homes. I for one know these programs are also abused. So I pray to god you will not pass this raise. If you do you will only show your true colors that you only care about your own life an family.
I know God will not let you prosper while you walk on the less fortune. So stop an think about this. Praying for your vote!??
