Re: Kentucky Power Company Case No. 2017-00328

To Whom It May Concern:

This letter is in response to the receipt of a "Supplemental Notice of Proposed Construction of Electric Transmission Line" document received by my clients, William and Deborah Fowler. Their property, located at 1332 S. KY Hwy 15 in Hazard, currently has infrastructure belonging to Kentucky Power Company along with its respective easement, situated within the bounds of their parcel lines.

Over the last year they have made improvements, including a building, parking lot, etc., to the property that will make it difficult for any additional infrastructure or easements to extend further north than they are presently located. Additional information, including specific route layouts and proposed easement locations, would help in determining how the proposed construction project may or may not affect their property. Also, should a public hearing be scheduled, they would like the opportunity to have specific questions addressed at that time. Please forward any additional information or scheduling information for public hearings to the following addresses:

William and Deborah Fowler
PO Box 2527
Danville, KY 40423

Thank you.
