On July 28, 2017, Atmos Energy Corporation ("Atmos") filed an application to revise its Pipeline Replacement Program ("PRP") rates, effective for the 12-month period beginning October 1, 2017. Having reviewed the proposed tariff, the Commission finds that further proceedings are necessary to determine its reasonableness, and that the proposed tariff should be suspended pursuant to KRS 278.190(2). The Commission will use its best efforts to expedite the review of the revised PRP rates.

IT IS THEREFORE ORDERED that:

1. The proposed PRP tariff is suspended for five months from October 1, 2017, up to and including March 1, 2018.
2. a. Atmos, pursuant to 807 KAR 5:001, is to file with the Commission the original and an electronic version of its responses to all requests for information listed in the Appendix to this Order. The information requested herein is due no later than August 29, 2017. Responses to requests for information in paper medium shall be appropriately bound, tabbed and indexed. Each response shall include the name of the witness responsible for responding to the questions related to the information provided.

c. Atmos shall make timely amendment to any prior response if it obtains information which indicates that the response was incorrect when made or, though correct when made, is now incorrect in any material respect.

d. For any request to which Atmos refuses to furnish all or part of the requested information, it shall provide a written explanation of the specific grounds for its failure to completely and precisely respond.

e. When filing a paper containing personal information, Atmos shall, in accordance with 807 KAR 5:001, Section 4(10), encrypt or redact the document so that personal information cannot be read.
