Public Service
Commission

To P.S.C.

I am a Ky Power Customer why? Because that's all my choices!! We the people of Eastern Ky are being taken advantage of not only by Power Company but Insurance Companies too! I deal with the public on a daily basis in my job.

What I see is people can barely afford electric now if it gets any higher people will and some already have turned their cable off phones off can't afford elec. Heat/air So why does this company need more money!?! I think it pure GREED!!!

So give them the Rate Increases they want So these poor people of Eastern Ky can sit home and turn off all other luxuries to pay out the butt to only keep their food from spoiling.

Thank You
Willie Sth
