Att: Case (2017-00179)

Dear Commissioners!

I am writing in regards to the above referenced rate increase proposed by Kentucky Power.

We are already paying an exorbitant price for our electricity. We are paying to convert the new power plants to natural gas already; the extra charges on my bill for this month were \$41.79, some months it is more. I cannot afford any more increases.

I am retired, only person in household, living on a fixed income and by the time I pay my utilities, insurance, purchase my medication, there is very little left for anything else. I don't know what people are going to do with hikes like Ky Power implements with your approval.

I ask that you give this careful consideration before approving this increase, please think about the citizens of Kentucky first. Thank you!

Sincerely,

Glenn Stacy
