Dear Commissioner:

Am writing in concern with the 17% hike raise the Kentucky Power Company is requesting your approval to add on to our power bill. While this may not be a concern for some, it will be a tremendous burden on others. Those of us that are on a fixed income are already finding it very difficult to meet our monthly expenses eat and do what we have to do. I realize that nothing remains the same except our monthly income which does not increase. Please consider our burdens and do not allow this increase. I have already done all I know to do to cut back. I do not cook but very little. I sweat to keep my air at a higher temperature - keep it low & bundle in the winter and do as little laundry as possible. Again, please consider us poor folk.

Sincerely
Mollie Mackler
