CASE #: 2017-0019 RECEIVED

JUL 24 2017

PUBLIC SERVICE
COMMISSION

To Whom It May Concern:

This Correspondence is in protest of the 17% increase in the Kentucky Power Bills or AEP.

I am a Nurse that works in Leslie County where I live in Hyden, Kentucky.

My husband is disabled and we have 5 kids:
2 - High School, 1 College and 2 - Elementary school. Ages: (19, 18, 17, 12 & 8)

My husband draws a disability check and with my income we barely make it as it is and to increase the electric bill 17% I just don't know how I will pay it.

I am asking that you please take into consideration to not make this increase? Leslie County has been hit with severe job losses due to the coal industry shut downs.

We love our kids and find it hard to feed, clothes and send them to school and know this increase will only impact what we do now.

CASE#: 2017-00179

Again I want to ask for this increase be stopped in order to provide heat, Air Conditioning and be able to pay my electric bill in the future.

My husband is a Veteran, he has worked several years in the coal mines and he has a really bad heart condition. He is on meds for his heart condition and must stay in a cool house during extreme hot conditions which has been most of July 2017.

Thank you for your consideration of this request.
