Regarding Case # 2017-00179

Last fall "I prayed" for a mild winter so I could afford to pay my power bill. And last winter should have proved there is a God to help in time of need. Everytime I do that the power Co. Ask for a rate increase, and I'm not finished paying last years Budget amount.

So they increase my budget amount and power too. I fight like fighting fire to keep all my bills paid up.

So they blame the poor people when they lose money, and I am wondering how can they afford Big donations to help fund Scholarships etc.

I blame them that money value decreases because they are greedy and you know it. When one raises something they all do. Therefore money

Value isn't do anything but stop?  
Clearance. Where does it stop?  
How long a rate increase.  
They should to turn upon first  
trying to save on my light bill.

It was already trying to save  
too much on it.

They get on TV acting like they're  
there to help.

They think we don't understand why they  
need to raise the bill on everybody.  
Ask: "Why know what caused the  
Value of a dollar to go down?"

Elm Christ,  
Maele Lane
