Re: AEP Electric bills

Dear Sir or Madam:

I am writing to protest any increases in our electric bills. We are already paying too much. Our power is always going out. This area of Kentucky is suffering from a poor economy now and to grant any increases is only adding fuel to the fire. People are moving out of the area now, it is making it almost impossible to attract businesses and industry here with these high electric bills and poor service. It is my opinion AEP is laden with fat and waste, very poorly managed at the higher levels, we are being punished for their poor management and bad decisions. Just Sunday we were without service twice for hours. Last week alone, it was out at least three times. It is totally unfair to the people in East Kentucky serviced by AEP to allow this to continue, for example AEP is giving away our money, they advertise fund activities, where this winter people will be unable to pay their bills and may be in the cold. We can no longer afford such waste of our money and inefficiency. The answer cannot always be give us more money and continue on with business as usual, at our expense that we surely cannot afford, they made this mess they are in not us. The Public Service Commission holds our trust so we are expecting no less. Thank you for your consideration, much is at risk!

Sincerely,

William S. Hall
