Dear Commissioners:

I am writing today to formally and officially request the Kentucky Public Service Commission to hold public hearings in Morgan County and Johnson County on the proposed Kentucky Power rate increase. The proposed increase is significant and will cause serious hardship for the people of this community. A public hearing will give our people the chance to discuss the impact the proposed rate hike will have on their lives.

I also request that these public hearings take place before December 6, the day Kentucky Power and intervenors are set to begin cross-examination and the presentation of witnesses on the proposed hike.

Finally, I ask that the date be set far enough in advance for ratepayers to make plans to attend, and that the venue be accommodating for anyone interested in attending.

This issue is important to everyone in the Kentucky Power service area. I hope you will grant this request.

Thank you,
