Subject: 2017-00179 ky power proposed 17 percent rate hike

Ladies/Gentlemen

With concern for myself, my family and all the people who the proposed rate hike would affect, I come before you with this letter to ask for a good explanation as to why Ky power would need any rate hike as they have had one of the best years in company history and are on a record setting start to the year 2017..they have already amassed a 12 million dollar profit in the first quarter of this year and will have another record year this year..the bills of the people in SE Ky already are burdened with the fees added to change over the big sandy plant from coal to gas(which wasnt done) and also with a fee to help them pay for the demolition of this same plant. It is necessary to bring your attention that through just the fees the PSC has already burdened the people of southeast ky by allowing these corporate pirates to take advantage of the people of Ky with fees that shouldnt never have been allowed as they get tax breaks and depreciation for the fate of the said plant..We beseech you not to give this raise to Ky power as it is obvious they do not need the extra money to just hand it over to stockholders or the chief executive officers in awards and exuberant pay for having these positions. we desire that you turn down KY powers request for this raise and that you do not allow any raises until such times all the fees are removed for the changeover/destruction of the big sandy plant. the people of SE Ky are already hurting from lack of good paying jobs and just cant afford to have this extra burden thrust upon them..thank you for thinking about denying them raise and we the people of KY thank you for not allowing this corporate giant to further take away our meager lives.

Please do not grant the electric company yet another rate increase! I am a single, working mother, doing my best to raise my kids! I can't afford new school shoes, at least not the ones they want, let alone give the electric company MORE money! This is ridiculous to even be debating! No one in their right mind could ever believe in their heart this is the right thing to do to families whom are already struggling..How are elderly people on a fixed income suppose to survive! This is just morally wrong! Please don't let this happen!!
