Name: Rhonda Woods

Address: 981 Lower Pompey Rd, Shelbyana, Ky 41562

Case: 

COMMENTS: I am single trying to survive
on what I make and I am against this Rate
increase. We have a president now who is
lifting EPA bans and helping coal production
and I don't see the need for another increase
this soon. This is getting out of control and is
nothing but greed! Ky Power has no competition
so they think they can do whatever they want.
I will keep contacting every state and federal
official I can until something is done. Are
people on fixed incomes suppose to go without
heat? There is no reason for this increase.
