Case: 2017-00179

COMMENTS: I'm a 95 yr old retired
Ashland Schools teacher and administrator.

I had the pleasure of attending the meeting
last evening at Bellefonte Pavilion which
was a very interesting presentation of material
put together by Kentucky Power (American Power)
lawyers, staff and others extolling the needs
for a rate raise on our power bills.

There has been rate raises time and again.
The presenter stated that the need to raise rates
is because "we have lost many customers".

The only reason for a rate raise then is to
continue the huge benefits for the share-holders
and managers of the Company.

In Eastern Kentucky there are many residents
who no longer have an income with attached
benefits. Many older people have to decide which
to spend their small set retirement or unemployed
benefits for medicine or food or continue to
heat their home during the cold winter months.
They absolutely do not need a rate increase on our
power bill - they have all these added intities on
our bill already that brings in millions of dollars
from the residents of these 60 Counties of Ky.
