PUBLIC SERVICE
COMMISSION

RATE INCREASE -
I WANTED TO
GO LAST NIGHT TO YOUR SEMINAR
ON RATE INCREASE AT RUSSELL
KY BUT COULD NOT BECAUSE I
AM DISABLED AND ON OXYGEN
24/7.
My wife and I bought
a small Older Home in Oct
of 1990, I installed new Double
Hung Windows, Doors, Insulation
whatever needed to be done to
help it to be better Insulated.

-2-

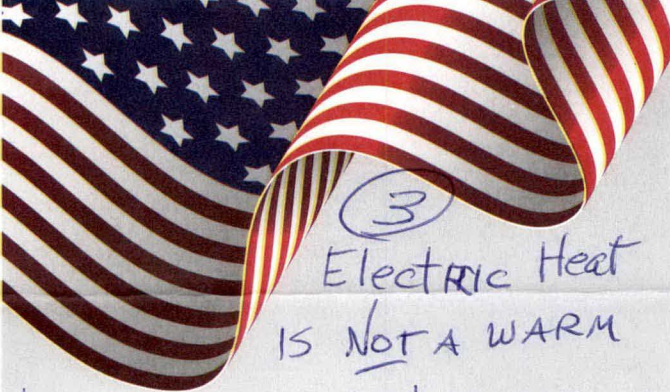

My Electric Bill

then was \$82⁰⁰

per month. No matter what I
done my Electric Bill would
keep RAISING, We spent over
\$1200,00 ON A wood stove, It
got so hot in the house we
kept the Furnace off (Bill was
the same whether we had it
on or off, Between buying wood
and paying the Electric Bill
we were barely making ends
meet, We sold the Stove and
bought a forced heat and Air
unit, SAME thing Again

③
Electric Heat
IS NOT A WARM

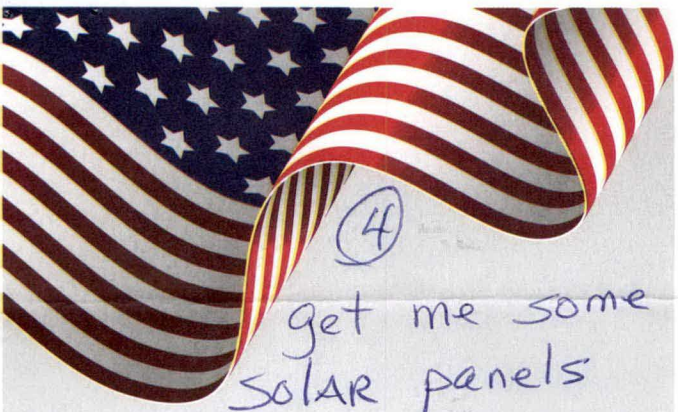

heat, We went to gas
(Now we stay WARM) but
the electric Bill has gone
to \$271⁰⁰ month, subject
to raise next month. And
you guys want another raise

Give us poor people on a
fixed income a break.

If I was 30 I
would move and build a
cabin AWAY from everyone

(4)

get me some
SOLAR panels
And wouldn't need any
of AEP's cheap Electric.
You know I am
A retired steel worker
disabled and don't qualify
for any assistance like
some one who never
worked a day in their
lives. That's all I have
to say, no matter how much
it raises I either pay it
or get my electric turned off
